

Iasi, Romania

With 10+ years of experience in the design field, I have a profound appreciation for the problem-solving process, in the context of the product designer role, as it aligns with my objective of enhancing experiences through thoughtful and systematic solutions.

Skills

- Ability to Work Under Pressure
- Communication Skills
- Flexibility and Adaptability
- Ability to Work in a Team
- Fast Learner

Employment History

Product Designer at Cognizant, Iasi

October 2023 – Present

My journey with the Cognizant product design team is underpinned by clear objectives: to refine and mature my product and design perspective. At the core of this mission is a commitment to collaboration with fellow creatives. Together, we aim to weave innovative experiences that address the intricate needs of both internal and client-facing facets. This collaborative effort is not merely a professional aspiration; it's a dedication to continual improvement and a shared endeavour to elevate the team's capacity for delivering impactful design solutions.

Product Designer at Thinslices, Iasi

April 2023 – October 2023

Build solutions for different products in the B2C sector and internal products:

- Designing and implementing web and mobile applications that are user-centered
- Build a multidisciplinary design system that would provide a general source of truth to different product sectors
- Developing and maintaining multiple design systems
- Creating flows, wireframes, prototypes, and high-fidelity visual designs
- Collaborating effectively with cross-functional teams, including product management, engineering, and marketing

Product Designer at Kantar/Beenear, Iasi

February 2020 – April 2023

Entrusted with the responsibility of maintaining and advancing five B2B Kantar products, with a primary focus on the following key areas:

- Designing and implementing web and mobile applications that are user-centered
- Conducting user research, testing, and analysis to inform and enhance the design decisions
- Developing and maintaining multiple design systems
- Creating flows, wireframes, prototypes, and high-fidelity visual designs
- Collaborating effectively with cross-functional teams, including product management, engineering, and marketing
- Possessing proficiency in various design tools, such as Sketched, XD, and Figma (with Figma being my preferred tool)
- Being adventurous and adept in the use of various tools, such as Hotjar, Dovetail, and Muse, to enable effective design decision-making.

Achievements:

- in one year managed to reduce the product complexity on 45% of the set goals
- increase the product learnability and onboarding
- building a design system that reduced the production time by 60%
- my awareness of front-end development improved the communication process with the development teams, leading to a mature output

Founder and Editor at Wabbaly, Iasi

February 2010 – November 2020

Wabbaly was a website project that used visual communication to present, guide and inspire a diverse audience.

Project achievements:

- reached an audience of 45000views/month in 4 months;
- directly mentored 17 students;
- the articles presented on Wabbaly have been showcased in different student projects;
- interviewed 47+ book authors, photographers and brand designers.

**Founder and Art Director
at Sergiu Naslau Studio
Design, Iasi**

February 2014 — January 2020

A small design studio focused on helping small businesses enhance their visual language, and reach their intended markets with ease, while in the same time differentiating themselves from the competition.

Designer at Amazon, Iasi

October 2015 — November 2019

Leading the creation of the visual materials targeting the North American audience for specific categories: movies and tv shows, video games, and wedding registry.

Improved the creative process for the DVD category, reducing visual assets wastage and revisions by 83%

Matured the DVD category style guide for better onboarding by other designers, and standardized the templates for future category automation processes.

Designer at Beaglecat, Iasi

May 2015 — August 2015

My job evolved around the process of creating: landing pages, social media elements, whitepapers, ebooks and basically solve any design problem that would appear.

**User Interface Designer at
Unisoft, Osimo**

February 2012 — April 2012

At Unisoft was under the umbrella of an internship. For 3 months my focus was on improving the user interface of their application.

Education

**Multimedia Design and
Communication, University
College of Northern**

Denmark - UCN, Aalborg
2010 — 2012

The main activities surround the following subjects:

- graphic design - learn the basics and implement them in real projects;
- front-end development - learn basic html and css and build a functional website;
- motion design - basic editing and manipulation;
- marketing management - related to the other projects
- video editing - create and manage the creation of a music video for local band
- game development - build a game in unity.

The most amazing part was the fact that we were working on projects with real people and businesses.
Indoctrinated in the world of economics with a focus on marketing.

**Marketing and Business
Communication, Faculty of
Economics and Business
Administration - FEAA, Iasi**

2005 – 2008

Hobbies

To be able to be efficient in this problem-solving process I read a lot on the subject of product design. If not in the gym I tend to run 20km around the city. An avid gamer. Sometimes I mentor other designers.

Courses

**Human-Computer Interaction: The Foundations of UX
Design, The Interaction Design Foundation**

December 2022 – December 2022

**UX Foundations: Style Guides and Design Systems,
Linkedin**

February 2020 – February 2020

Developing a Design System with Adobe XD, Linkedin

February 2020 – February 2020

Creating a Design System with Adobe XD, Linkedin

February 2020 – February 2020

**Designing Complex Apps for Specialised Domains, Nielson
Norman Group**

November 2021 – November 2021

UX Deliverables, Nielson Norman Group

June 2022 – June 2022

Figma: Handing off to Developers, Linkedin

September 2022 – September 2022

UX Management: Strategy and Tactics, Interaction Design Foundation

February 2023 – Present

Conducting Usability Testing, Interaction Design Foundation

January 2023 – Present

How to Create Intuitive Products by Imitating Physicality, Interaction Design Foundation

February 2023 – Present

Gamification - How to Create Engaging User Experiences, Interaction Design Foundation

February 2023 – Present

Service Design: How to Design Integrated Service Experiences, Interaction Design Foundation

January 2023 – Present
